

We recently became aware of the possibility of LPFM taking priority over FM stations, and possibly losing access to our favorite radio station K-LOVE. If that is the case our area would lose a radio station that provides a wonderful service to families in the USA.

For my family it has been great to have commercial free wholesome modern music available to our teenage kids and younger kids 24 hours a day. K-LOVE's service is very important to families who appreciate having viable alternatives to radio stations that regularly play songs with questionable content.

To have access to a station with no inappropriate commercials and no questionable lyrics is a very positive option for families now days. K-LOVE offers a very unique service that should not be lost. Our request is that K-LOVE will not be displaced by an LPFM broadcaster.

Sincerely,

Janet Forte
